2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Organization

Honorary Presidents

Qide HAN, M.D.

Vice Chairman of the Chinese People's Political and Consultative Conference (CPPCC), President of Peking University Health Science Center, China

Denis NOBLE, Ph. D.

President of IUPS, Emeritus Professor of Cardiovascular Physiology, Oxford University, UK

Shu Chien, M.D., Ph.D.

Y.C. Fung Professor of Bioengineering and Medicine & Director of Institute of Engineering in Medicine, University of California San Diego, USA

Xiongli YANG, Ph.D.

Institute of Neurobiology, Institutes of Brain Science and State Key Laboratory, Medical Neurobiology, Fudan University, China

Conference Chairman

Xiao-Min Wang

President of CAPS, Capital Medical University, China

Ying-Shing Chan

Vice President of CAPS, The University of Hong Kong, China

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Secretary-General

Yun Wang

Peking University Health Science Center, China

International Program Committee

Chairperson: Xiongli YANG, Fudan University, China

Members:

The American Physiological Society

Australian Physiological Society

Austrian Physiological Society

Brazilian Society of Physiology

The Chinese Association for Physiological Sciences

The Chinese Physiological Society in Taipei

French Physiological Society

Physiological Society of Japan

The Physiological Society

Physiological Society of New Zealand

Scandinavian Physiological Society

Jane F Rockeloff

Graham Lamb

Nandy Goswami

Vagner Antunes

Lan Ma

Po Shiuan Hsieh

Naim Khan

Yoshihiro Kubo

Richard Vaughan-Jones

Colin Brown

Bryndis Birnir

Local Organizing Committee

Chairperson: Xiao-Min Wang, President of CAPS, Capital Medical University, China

Vice Chairpersons:

Yun Wang, Vice president and Secretary general of CAPS, Peking University Health Science Center,

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

China

Shiqiang Wang, Vice president of CAPS, Peking University, China

Members: (Alphabetical order)

Chunlei Jiang, The Second Military Medical University, China

Haibin Wang, Institute of Zoology, CAS, China

Jimin Cao, Peking Union Medical College

Jun Chen, The Fourth Military Medical University, China

Junfa Li, Capital Medical University, China

Lingling Zhu, Institute of Basic Medical Science, Beijing, China

Wei Kong, Peking University Health Science Center, China

Zhiqing David Xu, Capital Medical University

Welcome Message

Dear Colleagues,

It has been 3 years since we co-organized the International Conference of Physiological Sciences 2012 together with The American Physiological Society, The Australian Physiological Society, Brazilian Society of Physiology, Canadian Physiological Society, The Physiological Society of Japan, The Physiological Society, and The Scandinavian Physiological Society. To further strengthen our interaction with physiologists of different societies, The Chinese Association for Physiological Sciences (CAPS) has made an initiative to organize another event of similar nature in 2016 with our international partners. Apart from physiologists within China, CAPS has made strenuous effort to secure the participation of hundreds of Chinese physiologists who have established laboratories in other parts of the world. In this 2016 Conference, each participating society will sponsor 1-3 symposia bearing the name of the respective society. Each of these sponsored symposia will be 2-2.5 hours in duration. Speakers of each of these symposia are from at least two societies so as to facilitate interaction. The 2016 International Conference will be held in the China National Convention Centre, Beijing, China (September 25-28, 2016).

2016 International Conference of Physiological Sciences

September 25 - 28, 2016
China National Convention Center, Beijing, China

So far, 14 societies (including American Physiological Society, Australian Physiological Society, Austrian Physiological Society, Brazilian Society of Physiology, The Chinese Physiological Society in Taipei, French Physiological Society, The Physiological Society of Japan, The Physiological Society,

Physiological Society of New Zealand, The Psychoneuroimmunology Research Society and Scandinavian Physiological Society) have agreed to host named symposia in the event and all societies have submitted the named symposia to the conference. This conference is also sponsored by International Union of Physiological Sciences (IUPS), The Federation of Asia and Oceania Perinatal Societies (FAOPS) and the National Natural Sciences Foundation of China (NSFC).

Our colleagues in CAPS are looking forward to meeting you during the Conference in Beijing.

Welcome to the International Conference of Physiological Sciences 2016 (ICPS2016)!

Sincerely yours,

Conference Chairman

Xiao-Min Wang
President
The Chinese Association for Physiological Sciences (CAPS)

Conference Chairman

Ying-Shing Chan
Vice President
The Chinese Association for Physiological Sciences (CAPS)

2016 International Conference of Physiological Sciences

September 25 - 28, 2016
China National Convention Center, Beijing, China

Conference Information

Venue

The Conference will be held at China National Convention Center (CNCC), which is located in the northern part of the city. It is a 25-minute drive from Beijing Capital International Airport and a 20-minute drive to the downtown area.

Language

The official language of the Conference is English.

Meeting Facilities

Projectors Multimedia LCD projectors will be available in all meeting rooms. A Preparation Room will be open in CNCC during the Conference.

Electricity The electricity is supplied at 220V, 50Hz in China.

Posters The poster board is 1-meter-wide by 2.4 meters high.

PCO The PCO (Professional Conference Organizer) is Origin C&E Service Co., Ltd. (北京新汉源国际会议展览服务有限公司)

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Scientific Information

Speakers and Symposia

Plenary Speakers

Shu Chien, Y.C. Fung Professor of Bioengineering and Medicine & Director, Institute of Engineering in Medicine, University of California San Diego, USA

(Plenary Lecture 1) Sep 26 morning

Epigenetic Regulation of Vascular Mechanotransduction

Michael Hausser, Wellcome Trust Principal Research Fellow and Professor of Neuroscience, University College London, UK

(Plenary Lecture 3) Sep 27 morning

All-optical interrogation of neural circuits during behavior

Peng Li, Professor and Associate Dean of School of Life Sciences, Tsinghua University, China

(Plenary Lecture 4) Sep 27 morning

The Size Matters: The Biology and Mechanism of Lipid Droplet Fusion and Growth

Yoshinori Marunaka, Professor and Chairman, Department of Molecular Cell Physiology, Kyoto Prefectural University of Medicine, Japan

(Plenary Lecture 5) Sep 28 morning

How do chloride and hydrogen ions regulate body function?

Larry William Swanson, University Professor and Appleman Professor of Biological Sciences, Neurology, and Psychology, University of Southern California, US

(Plenary Lecture 2) Sep 26 morning

Architecture of the cortical association network supporting voluntary behavior and cognition

Ruiping Xiao, Professor and Director of Institute of Molecular Medicine, Peking University, China
Role of E3 ligases in metabolic syndrome

(Plenary Lecture 7) Sep 28 afternoon

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Xu Zhang, Professor and Associate Dean of Shanghai Institute for Biological Sciences, Chinese Academy of Sciences, China

(Plenary Lecture 6) Sep 28 morning

The Chinese Association for Physiological Sciences Symposia

1. Mitochondria and metabolism in muscle physiology and disease
2. Molecular mechanisms of cardiac E-C coupling / Ca^{2+} regulation
3. The molecular basis and translational medicine in cardiovascular systems
4. The interplay between extracellular matrix (ECM) and cell during health and disease
5. Neural stem cell
6. The control of motor behavior: From plasticity to circuitry
7. Insights into the function and regulation of central monoaminergic and adenosinergic systems
8. The emotional modulation of pain
9. The epigenetic modulation of pain
10. Parkinson's disease: From bench to bed
11. Pulmonary microenvironment: From basic research to translational medicine
12. Molecular players in pregnancy
13. Gut function and homeostasis
14. Gametogenesis
15. Molecular mechanisms under hypoxia adaptation, ischemia protection and microgravity regulation
16. Stress and health
17. Physiological regulation of hematopoietic cells in normal or diseased state
18. Neuroendocrine and endocrine molecules and the multi-regulation in physiology
19. Traditional Chinese Medicine (TCM) diagnosis and auxiliary equipment for treatment
20. Renal physiology and the basis of renal disorders

American Physiological Society Symposia

1. Sex-specific cardiac regulation by sex hormones
2. Intramyocardial fibroblast, extracellular matrix and myocyte orchestration in heart
3. The neuronal control of breathing in health and disease

Australian Physiological Society Symposium

Novel mechanisms of inter-cellular communication regulating metabolism in health and disease

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Austria Physiological Society Symposium

Gravitational physiology

Chinese Physiological Society in Taipei Symposia

1. New developments from animal models of obesity and diabetes: Physiology, pathophysiology and genomics
2. Synaptic function and plasticity in health and disease
3. Frontiers in pain physiology: From receptors to higher functions

Physiological Society of Japan Symposia

1. Dynamic aspects of structure, function, regulation and physiological relevance of ion channels
2. Physiology and pathophysiology of Cystic Fibrosis Transmembrane conductance Regulator (CFTR) in Asia: Asian CF and CFTR-mediated non-CF disease

Physiological Society of New Zealand Symposium

Regulatory mechanisms that underlie cardiac dysfunction

Psychoneuroimmunology Research Society Symposium

The Physiology of Immunology

The Physiological Society Symposium

Signalling in the heart

The Physiological Society - The Journal of Physiology Symposium

Enteric neurobiology and sensory signaling

The Physiological Society - Experimental Physiology Symposium

Role of ion channels in pulmonary arterial hypertension

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Scandinavian Physiological Society Symposia

1. Synaptic dynamics and plasticity
2. Calcium Homeostasis in Striated Muscle

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Conference Registration

Please register on-line with relevant payment before May 31, 2016. An advance registration is requested for participants who want to present their papers at the Conference. Otherwise their papers will not be included in the presentation program of the Conference. On-site registration will be available at the registration desk during the Conference, but it is only for participants without presentation at the Conference.

Registration Fees

Category	Before May 31, 2016	On/After Jun. 1, 2016	On/After Sept. 1, 2016
Member	CNY 1800 (USD 300)	CNY 2200 (USD 350)	CNY 2500 (USD 400)
Student Member	CNY 900 (USD 150)	CNY 1100 (USD 170)	CNY 1300 (USD 200)

Fees include:

- Attendance at the Conference
- Preprints and program books
- Conference Opening Ceremony
- Welcome Reception
- Working Lunches
- Coffee Breaks

Recommendation of Hotel Accommodation

* Following hotels are for your quick reference. Need you to book a room during the conference, please visit the hotel official website or call their reservation line shown in the following pages.

* Since rooms availability is subject to change constantly, early booking is strongly suggested.

Hotel	To CNCC	Room	Reference Rate	Transfer
China National Convention Center Grand Hotel	780m	Deluxe King Room	CNY 1000 One/Two Breakfast(s)	2 Mins Walk
		Deluxe Twin Room	CNY 1000 Two Breakfast	
Best Western OL Stadium Hotel Beijing	2.1km	Standard King Room	CNY 460 One/Two Breakfast(s)	Subway Line 15
		Standard Twin Room	CNY 460 Two Breakfasts	
The Yayuncun Hotel	1.8km	Standard Twin Room	CNY 370 Two Breakfasts	Subway Line 8
Jinjiang Inn (Beijing Olympic Sports Centre)	3.0km	Standard King Room	CNY 310 No Breakfast	Subway Line 15
		Standard Twin Room	CNY 320 No Breakfast	
Hanting Express (National Stadium Beijing)	3.6km	Standard King Room	CNY 300 No Breakfast	Bus Route.110
		Standard Twin Room	CNY 310 No Breakfast	
Home Inn (Beijing Bird's Nest)	2.4km	Standard King Room	CNY 330 No Breakfast	Subway Line 15
		Standard Twin Room	CNY 280 No Breakfast	

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Hotel Information

CNCC Grand Hotel (5-star hotel)

Sitting in the heart of the Beijing Olympic Green, CNCC Grand Hotel is adjacent to China National Convention Center and it takes only 3 minutes to walk to the Center through the skybridge in between. The Hotel is within walking distance to the Bird Nest (China National Stadium where 2008 Olympics opening and closing ceremony were held), the Water Cube (National Aquatics Center) and the State Indoor Stadium. We offer our guests all of

the tools necessary to help create an optimal sleep experience. In addition to a comfortable executive writing desk with international sockets, each room features international direct-dial telephones with dual lines and voice mail, plasma TV and a large bay window with charming view of Olympic Green.

Tel: +86 (10) 8437 2008

Address: 1, 8 West Beijing Road, Chaoyang District, 100105 Beijing, China

Best Western OL Stadium Hotel Beijing (4-star hotel)

Best Western OL Stadium Hotel is situated in Chaoyang District, 20-minute drive from the Beijing National Stadium and Beijing's bustling city centre. Free Wi-Fi is available in some rooms. Rooms at the Best Western Hotel are well equipped with a tea/coffee maker and a minibar. Satellite TV, an iron and a safety deposit box are available. Best Western OL Stadium Hotel has an in-house beauty salon to attend to guests' beauty needs. Guests can also

work out at the fitness centre. Dry cleaning, laundry and currency exchange services are available as well.

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Yayuncun Hotel (3-star hotel)

The Yayuncun Hotel is located in the Asia Games Village in the north of Beijing. With convenient access to the airport and railway station, and with all of the capital's main attractions nearby, this hotel is a great choice. All rooms are equipped with air conditioning, satellite TVs, mini bars, IDD telephones and Internet access. In terms of dining, guests can enjoy both Chinese and Western food at the on-site dining outlets. Well equipped to cater to the needs of the business traveler, there are also various-sized meeting rooms and a functional business center available. For recreation, guests can make use of the on-site gymnasium, sauna center and swimming pool.

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

General Information

About Beijing

Beijing, the capital of China, is China's political, economic and cultural center. It is unique in history, tradition and characteristics. Some 3000 years ago, a small city appeared on the present site of southwest of Beijing. From the 12th Century to 1911, it was the capital of Jin, Yuan, Ming and Qing Dynasties. Now, it is shaping itself into a modern metropolis on the 16,800 square kilometers with a population of 13 million. You will find the city an unforgettable destination, with its ancient Great Wall, the Forbidden City, the numerous palaces telling legends of dynasties long lost in the mist of history. Moreover, the city has refreshed its complexion by the growing numbers of parks and recreational centers, the folk shows of holiday celebrations, the splendid theatrical stages, and the grand city outlook.

Transfer from the Airport to Hotels

All flights arrive at Beijing Capital International Airport, which is 30 kilometers from town, and is served by major international airline companies. Airport bus shuttles connect the airport to different parts of downtown Beijing, including China National Convention Center. But the most convenient way is to take a taxi at the taxi stand; the cost is around 100 Chinese yuan.

By Airport Shuttle Bus

It's convenient to take an Airport Shuttle Bus to the conference site if you travel light. Please select Airport Shuttle Bus Line No. 6, which runs from Beijing Capital International Airport to Shangdi Holiday Inn (the terminal). Please get off at Aoyuncun Station (Olympic Games Village, the last but two stop) at a cost of 26 yuan bus ticket, from where it's about 10 minutes' drive by taxi to China National Convention Center (abbr. CNCC). It's recommended to take a taxi here to CNCC, costing around 13 yuan for single way ride. The earliest bus from Airport leaves at 08:30, while the last one departures at 21:30 from the Airport.

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

By Taxi

The total cost is around 100 Chinese yuan, including the expressway fee. The total time is around 30 minutes. If encountering a heavy traffic, the cost may be higher. Also the time spent may be longer.

Although there is an airport subway to town, it costs much more than the shuttle and needs two subway transfers plus 15-20 minutes' walk. So it is not recommended.

Transportation in Beijing

Bus

Buses are the main means of transport in Beijing. Please prepare small bills in case of no-change bus lines. It would be very crowded in rush hours at 07:00-09:00 and 16:00-18:00.

Subway

The subway system in Beijing has eight lines. The fare is 2 yuan per entry with free transfer from one line to another. Trains run from 05:30 in the morning until 23:00 in the late evening. A ticket can be bought at the ticket office at each station or at an automatic ticketing machine. Subway stops are announced over the train's speaker system in Chinese and English.

Taxi

Taxis in Beijing have several colors. All of them show a taximeter inside. You can easily find them in every part of Beijing. All Taxis will charge 2 yuan per kilometer with a base of RMB10 yuan.

Weather

Autumn is the best season of the year in Beijing. Only the autumn has pleasant weather with clear sky and the best air quality, which thereat is called the "golden season". Also, autumn is the best traveling time of the whole year to Beijing. The temperature fluctuates during this season, with the average being about 12°C (54°F), with the highest around 23°C (74°F) and the lowest around 7°C (45°F).

2016 International Conference of Physiological Sciences

September 25 - 28, 2016

China National Convention Center, Beijing, China

Insurance

The registration fee does not include insurance for the participants regarding accidents, sickness or loss of personal property. It is advisable to make your own arrangements in respect of health and travel insurance before leaving your countries.

Currency Exchange

In China, only RMB is used. However, exchange centers can be found at airports, most hotels and large shopping centers. The exchange rate is due to the official rate (Bank of China). When exchanging money, please keep your receipt by which you can change any remaining RMB back to foreign currency when leaving China. Visa, Master, American Express are accepted in many department stores and hotels. ATM could help you for changing RMB from your credit card.

Reconfirmation of Air Ticket

Departure air ticket (both international and domestic) should be reconfirmed 72 hours in advance. Calling the airline office in Beijing could make it. But these offices do not work in weekend.
